

## EQUAZIONI ELEMENTARI

$$\text{sen } x = m \qquad x_1 = \alpha \qquad x_2 = \pi - \alpha$$

$$\text{cos } x = m \qquad x_{1/2} = \pm \alpha$$

$$\text{tg } x = m \qquad x = \alpha$$

$$\text{cotg } x = m \qquad x = \alpha$$

$$\text{sen } \alpha = \text{sen } \beta \text{ ----- } \begin{cases} x_1 : \alpha = \beta \text{ .....uguali} \\ x_2 : \alpha + \beta = \pi \text{ .....supplementari} \end{cases}$$

$$\text{cos } \alpha = \text{cos } \beta \text{ ----- } \begin{cases} x_1 : \alpha = \beta \text{ .....uguali} \\ x_2 : \alpha + \beta = 0 \text{ .....opposti} \end{cases}$$

$$\text{tg } \alpha = \text{tg } \beta \text{ ----- } \{ x_1 : \alpha = \beta \text{ .....uguali}$$
